DETAILED ACTION

This Office action is in response to the amendment filed July 11, 2006 and September 11, 2006.

1. The rejection under 35 U.S.C. 103(a) as being unpatentable over MAEDA et al (5,025,088) in view of RUSHKIN et al (6,929,891) is **withdrawn** in view of the arguments by applicant. MAEDA et al disclosed a different side group (amide) to the claimed (ester side group).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-7, and 9-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The definition of R_B is unclear and ambiguous wherein there is no variable with that designation. Correction is necessary.

Secondly, the claims disclose parts by mass, however there is no indication as to whether it is based on the total solids of the composition, the mass of the polybenzoxazole/polyamic acid or if it is based on the all the components including the solvent.

Correction is necessary.

4. Claims 1-7, and 9-12 appear to be allowable over the prior art of record upon correction of the 35 U.S.C. 112, second paragraph issues
